

PicoScope 2 Channel Automotive Diagnostic Oscilloscope Kit

The 2-channel version of the Pico Automotive Diagnostics Kit is an inexpensive diagnostic tool suitable for use on any type of modern automotive vehicle.

This powerful and flexible automotive diagnostic tool connects to, and is powered by, the USB port of your PC. It has been designed to be easy-to-use, and so is equally suitable for both novice and expert users.

Among the accessories included in the kit is the Pico 600A current clamp which can be used to display starter current waveforms, charging currents and for performing relative compression tests. A Pico 60A current clamp — ideal for measuring the current drawn by smaller devices, such as fuel injectors and fuel pumps — is also included.

The 2-Channel Automotive Kit (PP280) contains the following items:

- [PicoScope 3223 automotive oscilloscope](#)
- [60A AC/DC current clamp](#)
- [600A AC/DC current clamp](#)
- [2 x TA000 BNC to 4mm test leads](#)
- [2 x Secondary ignition pickup leads](#)
- [2-pin break out lead](#)
- [20:1 attenuator](#)
- [2 x Multimeter probes \(2 black, 2 red\)](#)
- [2 x Small crocodile clips \(2 black, 2 red\)](#)
- [2 x Dolphin clips \(1 black, 1 red\)](#)
- [Insulation piercing probes](#)
- [Acupuncture probe set](#)
- [Automotive software CD](#)
- [Quick start guide](#)
- [Sturdy carry case](#)
